DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7, drawn to a method of modifying animal behavior, classified in class 119, subclass 905.
 - II. Claims 8-14, drawn to an animal behavior modification apparatus, classified in class 119, subclass 719.
 - III. Claims 15-22, drawn to a method of altering a stimulation level of an animal behavior modification device, classified in class 340, subclass 573.3.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of Group III does not require the step of increasing the stimulation level and applying the increased stimulation to an animal, therefore it has separate utility. See MPEP § 806.05(d).
3. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP §

806.05(e)). In this case, the process of Group I can be practiced by hand in that it does not include the control logic of the Group II invention.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
